

PLANNING A TOUR TO MANUS ISLAND?

Defunct Detention Centre Tours

 *#1 of 3 things to do in Manus Island*

[847 reviews](#)

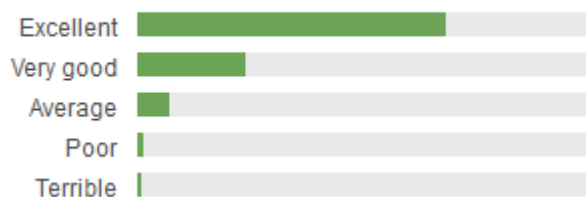

Description: During the unenlightened years (2001 – 2016) Manus Island was used as a “Detention Centre” (2001 – 2004) and “Regional Processing Centre” (2012-2016) for innocent asylum seekers. Several famous prisoners were detained here, including Aladdin Sisalem, who was kept as a

lone inmate from July 2003 until he

was finally granted asylum in Australia in June 2004, and Reza Barati, killed in a riot in February 2014. Take a tour, led by former guards of the Centre, and discover the horrifying conditions and dehumanizing propaganda that is now, thankfully, a thing of the past.
